## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 9, 11, 20, 22, 29, 31, 32, 36, 38 and 39 are allowed.
2. The following is an examiner's statement of reasons for allowance:

As to claims 9, 20, 29 and 36, the prior art of record fails to teach a cellular telephone set capable of performing animation display of any one of a stored plurality of characters wherein said character presentation means controls animation display of said character so as to differentiate patterns depending upon odd number and even number of an occurrence time of said predetermined operation.

Aoyama cited in a previous office action disclosed a cellular telephone set capable of performing animation display of any one of a stored plurality of characters includes character presentation means for controlling animation display of said character upon occurrence of an event on the set depending upon history information corresponding to said event. However, Aoyama fails to disclose wherein said character presentation means controls animation display of said character so as to differentiate patterns depending upon odd number and even number of an occurrence time of said predetermined operation.

As to claims 11, 22, 31, 32, 38 and 39, the prior art of record fails to teach a cellular telephone set capable of performing animation display of any one of a stored plurality of characters includes character presentation means controls animation display of said character depending upon result of detection of opening and closing states of said first and second casing by said detecting means.

Aoyama cited in a previous office action disclosed a cellular telephone set capable of performing animation display of any one of a stored plurality of characters includes character presentation means for controlling animation display of said character upon occurrence of an event on the set depending upon history information corresponding to said event. However, Aoyama fails to disclose character presentation means controls animation display of said character depending upon result of detection of opening and closing states of said first and second casing by said detecting means.

Therefore, claims 9, 11, 20, 22, 29, 31, 32, 36, 38 and 39 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
